Re: Modification of permit 36-W-209-001

Mr. Meyer,

On March 24, 2001 Neal Farmer of the Idaho Department of Water Resources requested "to increase the amount of dye released from 8 pounds that is noted in the proposal to 14 pounds" for injection well permit 36-W-209-001. The IDWR UIC Program approved that request verbally through an email on March 24, 2011. No other modifications were approved in that email. This letter is the formal approval of the March 24, 2011 request. No other modifications are approved.

Regards,

Matt Anders, P.G.
UIC Program
