

MEMORANDUM

DATE: November 17, 2010

TO: File for Application 61-12095

FROM: Shelley W. Keen ^{SWK}

RE: Results of Status Conference

This morning I hosted a status conference for protested application 61-12095. Attorney Norm Semanko and engineering consultant Christian Petrich represented applicant Nevid LLC. Cleveland Corder represented applicant Cleveland Corder LLC. Attorney Mike Creamer represented protestant Idaho Water Company LLC. Protestant G3 LLC was not represented.

The parties in attendance recommended vacating the hearing scheduled for December to allow more time for aquifer testing in connection with Permit 61-12090. They also agreed to extend discovery until November 15, 2011, and to schedule another status conference for sometime in May of 2011.

At the meeting I distributed a list of applications pending in the Mayfield area. I also distributed a list of reference material that I indicated should be part of the record.
