Shelley—Please find attached some comments on the proposed consolidated hearing on the Mayfield applications. One thing to consider is that my client I think has the only county approved project of all the proposed developments. Also I am not that familiar with all the other proposals as I did not protest just to be protesting. I am trying to do a quick assessment to understand each of these as that would likely have some effect on how a hearing might progress and whether it is doable. But one thing to consider is—is a hearing the right process? Not sure why you want to do this to yourself but I'll do my best to work with you on it. Thanks for the additional time to get you some thoughts but I remain unclear on exactly what IDWR is proposing. Bruce
