Re: Orchard Ranch LLC Application Nos. 63-32703 and 73834

Dear Norm:

The Idaho Department of Water Resources (IDWR) received a request for more time in which to provide additional information in the above referenced applications for permit and transfer. The request was submitted by SPF Water Engineering on your behalf as explained by SPF in a telephone conversation late last week about this.

Additional time in which to respond to the November 5, 2008 IDWR request for information is approved as noted below.

Please submit the requested information for application processing to continue. You may seek additional time to provide the information by making a written request to delay processing. Your written response including the requested information, or a request for more time to seek the information, must be received by **August 1, 2009**.

Without a timely reply, IDWR will issue a preliminary order to reject the applications. The application fees will not be refunded for rejected applications. Rejected applications may be re-filed when adequate information can be provided.

This office provided email confirmation to SPF earlier today for the approved extension. Please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Steve Lester". The signature is written in a cursive, flowing style.

Steve Lester  
Water Rights Supervisor
