Roxanne:

Boise Highland has informed the department that SPF is no longer handling application 61-12090. It's being handled by Toothman-Orton. Processing awaits additional information from the applicant/consultant. Therefore, it would not be appropriate for me to discuss the application with you in any more detail at this time.

The Elk Creek Canyon applications are far down the list for processing since they are so new. If the permit applications are not dependent on the transfer application, processing of the former could probably start late this year.

If the permit applications are dependent on the transfer application (mitigation etc.), processing will be delayed for a longer period that it impossible to forecast at this time. That's because there are too many unknowns about transfer processing at this time (backlogs, staff shortages etc.). Maybe sometime in 2008 is my best guess.

Steve

Subject: Inquiry on behalf of Elk Creek Canyon LLC

Steve,

Can you tell me the status of the following permit and transfer applications?

IDWR No.	Type	Applicant	Application Date
61-12090	Permit	Boise Highland Development Co., LLC	September 28, 2006
61-12095	Permit	Elk Creek Canyon, LLC	April 3, 2007
61-12096	Permit	Elk Creek Canyon, LLC	April 3, 2007
61-7204, 61-7330, 61-7206C, 61-12015, 61-12017	Transfer	Elk Creek Canyon, LLC	April 3, 2007

Elk Creek Canyon LLC is acquiring the Boise Highland property and application. They would like to know the probable processing dates for these applications. In addition, please let me know if additional information is required at this time for the Boise Highland application. As you can imagine, Elk Creek Canyon is anxious to start their project.

Thanks in advance!
