Subject: RE: IGWA Storage Assignment Update
Attachments: 20130910 Storage Water Leases & Transfers.pdf

The recent filings by the SWC contain considerable inaccurate information and speculation about IGWA's storage water leases and assignments. To correct this I have attached a table which summarizes the current total of 49,389 AF of storage leased today, together with assignments of 38,060 AF for mitigation and conversions. The remaining balance is 11,329 AF which IGWA anticipates utilizing to meet any reasonable carry-over storage obligations year-end.

In the future a simple phone call could avoid inaccurate information and speculation.

Subject: RE: IGWA Storage Assignment Update

Travis,

On Friday, John Simpson and Brian Olmstead called and talked to Tony and me and about how the Director's order from early last week could be interpreted as taking water away from Twin Falls account, and the problems that would create for Twin Falls, rental pool procedures and water right accounting. That caused the Director's stay on Friday. Also on Friday the check from IGWA came in to cover the remaining WD1 and IWRB fees for the rental assignments to date.

The Director's order lifting the stay was sent this Monday afternoon.

Today, Wendy did confirm the fees have been paid by IGWA when I talked to her this morning. Water District 1 did complete the assignment of storage for AFRD#2. The 7,300 AF of storage assignment has been completed as per the Director's order and is now recorded on both the WD1 web page and weekly report mailed out today. This should
