Re: Edited pages for M3 Second Amended Application; GP File No. 8526-1

Dear Steve:

I am enclosing the following edited documents: Form 202, bearing an original signature; Attachment A; and Attachment B for the above-reference application. Please insert these in place of their earlier counterparts in the Second Amended Application.

As you know, the Application seeks up to 15 new points of diversion. The edits provided here change the legal description of the Application's potential new points of diversion to remove the earlier reference proposing each quarter-quarter within the Project for potential p.o.d.s. As you requested, this edited version changes this by naming just 15 quarter-quarters for this purpose. The exact locations within or among these will be determined as we learn more about the aquifer and begin development.

Thanks for your help on this. I hope notice of the Application can be published soon.

Sincerely,

Jeffrey C. Fereday
