RE: Assignments of Permit Nos. 63-31656 63-31563 & 63-31670

Dear Interested Party:

The department acknowledges receipt of correspondence changing ownership of water permit number 63-31656 to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Decreed water right No. 63-31670 is not in the name of Shirley Adams Sharp therefore the department is unable to process your assignment of permit request under this number. We are returning your assignment of permit request for this number. Please check the permit number as there may have been a typographical error, and submit a new assignment of permit form showing the correct permit number.

Water right application number 63-31563 is located in the department's western region therefore your assignment of application for permit has been forwarded to that office for processing.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

A handwritten signature in cursive script that reads "Darla Block".
