**To:** Roxanne Brown; Lori Graves  
**Subject:** Nevid and Intermountain Sewer & Water Corp updates

Roxanne & Lori:

This email is provided for your records for the above referenced SPF clients. This is let you know I received the June 17, 2011 amended ground water level monitoring plan for Nevid Permit 61-12090 as required by a condition of approval. I will forward it to the State Office for review and archiving. Thank you for providing that.

Also, processing will continue for Intermountain Sewer & Water Corp application 61-12256 based on the additional information submitted May 17, 2011. Again, thank you for sending that.

Please let me know if you have any questions about either of these matters.

Steve Lester
