

## MEMORANDUM

**Date:** July 7, 2009  
**To:** Water Right File 63-31862 Hillsdale Estates  
**From:** Michele Edl  
**Re:** field exam status

---

I received a phone msg from Lori Graves concerning the AIR letter I sent them. She wanted to talk about what I needed for supplemental information; if SPF needed to send a revised field exam or exactly what.

I returned her phone call and we discussed the submittals the Department needed. Lori and SPF are aware of the approaching deadline. I reiterated that the Department did not need a revised field exam report as the original report had been acceptable. However, the original had errors and lacked sufficient information to support the recommendations made within it

As a consequence of the phone conversation with Lori, I am expecting

- 1) a revised shapefile correcting the place of use
- 2) a revised rate calculation
- 3) and some documentation of incremental, additional beneficial use
