Subject: Question on Information in A&B Order
Rick-

I have received the CD with the Feb. 8, 2008 information disclosure from the Department on the A&B Jan. 29, 2008 Order. Thank you for sending that overnight mail.

The following information is not present on the CD.

- 1) In Items No. 47 to 53 (pg. 12) in the Order there is information on an irrigation diversion requirement calculation. The spreadsheets for this calculation are not on the disk.
- 2) The information regarding private wells near and within A&B and the GIS information referenced and used to support the conclusions in Items 69 to 75 and on Figures 6 to 9 (pages 17 to 19) in the Order are not on the disk. There is a pdf with a printout from GIS on the file, "Shapefile Showing Private Wells in A and B Irrigation District.pdf", but the actual GIS files are not provided.
- 3) The ET data referenced in Items No. 76 to 80 in the Order and the spreadsheets supporting the information on Figures 10 to 12 and the GIS information in Figure 9 is not on the spreadsheets.
- 4) The electronic files for the hydrogeologic cross-sections and location map associated with the pdfs on the CD are not on the spreadsheet.

May we request that this information be provided as soon as possible, as the Expert Reports are due on Feb. 28. I think this information probably needs to be made available to all the parties in the contested case. We can download from your FTP if that is easiest.

Thank you,

John Koreny
