Reach Gain Update

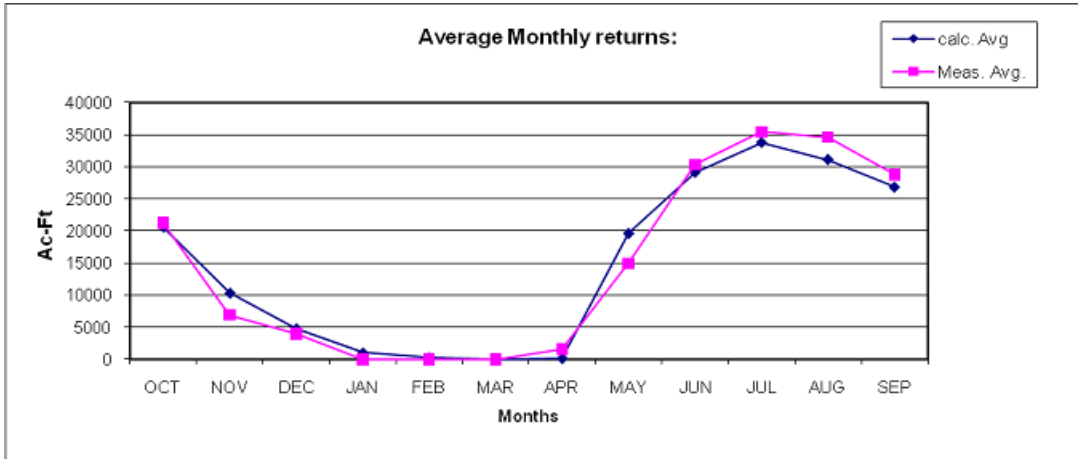
Allan Wylie IDWR

Reach Gain

Difference down stream and upstream gages and account for inflows and outflows

Lag Factors

Usually some diverted water returns to Snake River



GENERAL Return Calculations

- Current reach gain targets do not include up to date lag factors
  - 1980-1988: Canal manager intuition
  - 1988-present: Combination of measurements and canal manager intuition
- New reach gains include updated lag factors
  - 1980-1988: Canal manager intuition
  - 1988-2001: Combination of measurements and canal manager intuition
  - 2002: measurements
  - 2003: measurements
  - 2004: measurements
  - 2005: measurements
  - 2006: measurements
  - 2007: measurements
  - 2008: measurements
