Hi Rick-

I had to go towards the end so I didn't get to provide input. I agree.

Is another meeting scheduled or is this the end of the ESHMC meetings?

Thanks-

John

Subject: Committee Recommendation

Hi,

At the end of our meeting last Friday, the committee developed the following language to announce the completion of ESPAM version 2:

The ESHMC has completed the development of the Eastern Snake Plane Aquifer Model (ESPAM) version 2.0. The ESHMC recommends that the Department should go forward and use ESPAM version 2.0 for hydrologic analyses, if it is appropriate to use a model.

No one disagreed with the language, but at least one member asked for more time for review. Please review the committee recommendation above and provide your comments to me by July 10, 2012. If I do not hear from you by July 10, I will assume that you agree with the language.

Thanks for your efforts,

Rick
