**Subject:** Alternative Link for Water District Data

All,

The Department discovered a problem with the diversion data link ([http://maps.idwr.idaho.gov/qWRAccounting/WRA\\_Select.aspx](http://maps.idwr.idaho.gov/qWRAccounting/WRA_Select.aspx)) identified in its recent letters to the parties. The program will not display the last two months of the last calendar year data are available (example: data do not display for November-December, 2010). Also, the data in that application are rounded up to nearest whole numbers and do not display decimal places for values greater than 10 cfs, so it lacks the reported and entered resolution. As an alternative, the parties may also access historic diversion data through the following link:

<http://www.idwr.idaho.gov/apps/wm/DiversionDataApplication/Login.aspx>

One only needs to check the box on the login screen that says 'Check here to login as a guest (read only access)'. No username or password is necessary. Checking the box and clicking the login button will give the user access to water district diversion data.
