Water District No. 75-E

Re: Annual Water District Meeting Notice & District Status

Dear Darrel:

Our records show that you were the last person appointed as watermaster of Water District 75-E, Wallace Creek. Our records also show that this district has been inactive for the past year or more. We also do not have any current names and addresses of water users in this district.

The purpose of this letter is to clarify the status of District 75-E and determine whether the Department needs to continue annual correspondence regarding water district meetings and district budgets etc. We also need to know whether the district will be having a meeting this year. If there is going to be a meeting this year, please complete and return the attached form.

If the district remains inactive, then the Department will discontinue further correspondence and show the district as inactive until such time as the water users decide that an organized district is necessary.

If there are questions concerning this matter, please contact me at 327-7864.

Sincerely,

Tim Luke
