Re: McCammon Ditch Company's Petition for Enforcement of Decree

I called Kay Christensen on February 18, 1997, and asked about the status of the Petition for Enforcement of Decree filed by the McCammon Ditch Company. As you recall, we held a prehearing conference last spring, and the parties wanted to delay the hearing and conduct some preliminary negotiations. We stayed the proceedings until August 30, 1996. You inquired about the status by letter dated September 12, 1996, but nobody responded.

Kay told me that she had not been in contact with her client, and promised that she would inquire and let me know what McCammon wanted to do. I told her that the reservoir survey was complete, but the survey had not been tied to any staff gauge to determine storage at various water levels. She promised to communicate with me next week about a course of action.
