Concerning water delivered in Water District 41 in 2000

Water was for the most part available in all the District for the full water right plus at each diversion point. there was also extra at most points as well as at the last ditch in the system.

I had several calls to look at water shortages. In June the Landing ditch called and were short water and I went to Udy's Hartley ditch and took the extra water that was there, but left the decreed amount. That was enough to give the decreed amount to the Landing Ditch.

In August I recieved a call from George Udy saying they were short at their pump on Houtz canyon road. When I checked it Mr Charles bypass was open and leting water on down the creek, and Udys pump was running so I took no action except to inform Udys of what I found.

I also was informed by Mr. Udy that the Brown-Parker Ditch was low. Upon checking that Ditch there was a possability that it was low, but the measuring divice was washed out, and no measurement was possable. The water users of the ditch were informed of this, but no action was taken.

The Weston Meadow was dry all summer, except for a week or two in May. This was because of leaks around the diversion structure taht won't let the water back up high enough. Since I had more that enough water in the ditches below this structure I didn't feel that extra water should be alowed to pass this structure just to be able to rise the water enough to be on the meadow. Basicly the leaks in the diversion structure need to be repaired.

The Nelsons on the Taysom Meadow called around the 20th of july to ask if they could put the water back on their meadow. I told them that since the other ditches were running at or over their rights and I appeared to have enough water to go ahead and just fill the ditch to the 6 inch mark. That would be like them taking the extra water. If I needed It, that would be the first place I would come. There wasn't a need untill Udys called around the last week of Aug. about the Brown Ditch.

The Tradition of letting the Ditches take all the water they wanted untill water came up short in the valley was followed. This year except for the above exceptions I didn't come up short and had extra at the lowest ditches in the system.

The water delivered in this report is based on their arbitrated amount delivered from the 1st of May to the 30th of September.

James Robinson  
Watermaster  
District 41
