Subject: Bennett-Cold Springs Creek #61C Water District

I returned a call to Elsie Riggs, Sec. of # 61C WD concerning the Watermaster pay for 2000 on Friday . At this point the Watermaster has not been compensated by the District. I stated, the Department had not yet received any watermaster report from Mrs. McCallister, and that Mrs. Riggs should not make payment until the Department and District had received the year end reports. I will be sending the Watermaster a reminder letter this week.

Mrs. Riggs also stated, that McCallum had the creek block off, and is diverting water into the desert and pump catch ponds.

There is no water in the creek; Riggs are hauling water to their stock.

Riggs had called the Watermaster with no results.

As I am not familiar with the issues, I told her I would pass this on to you.

John
