Emily

- 1) There is no trim line tech doc, in GIS you select response functions greater than 10% for the target reach
- 2) Utilities can be found at
'http://www.idwr.idaho.gov/Browse/WaterInfo/ESPAM/model_files/Version_1.1_Current/model_trainingCDs_ver1.1/'

Subject: Trim lines tech doc?

Hi Allan,

Do you have technical documentation on the procedure to generate trim lines for specific reaches? If so, could you either send it to me or point me to where I can download it? If you need more details on what I'm looking for please let me know.

Also, could you please point me to any post-processing utilities for ESPAM v1.1 that are available?

Thanks,
Emily
