Two ways to establish water rights in Idaho

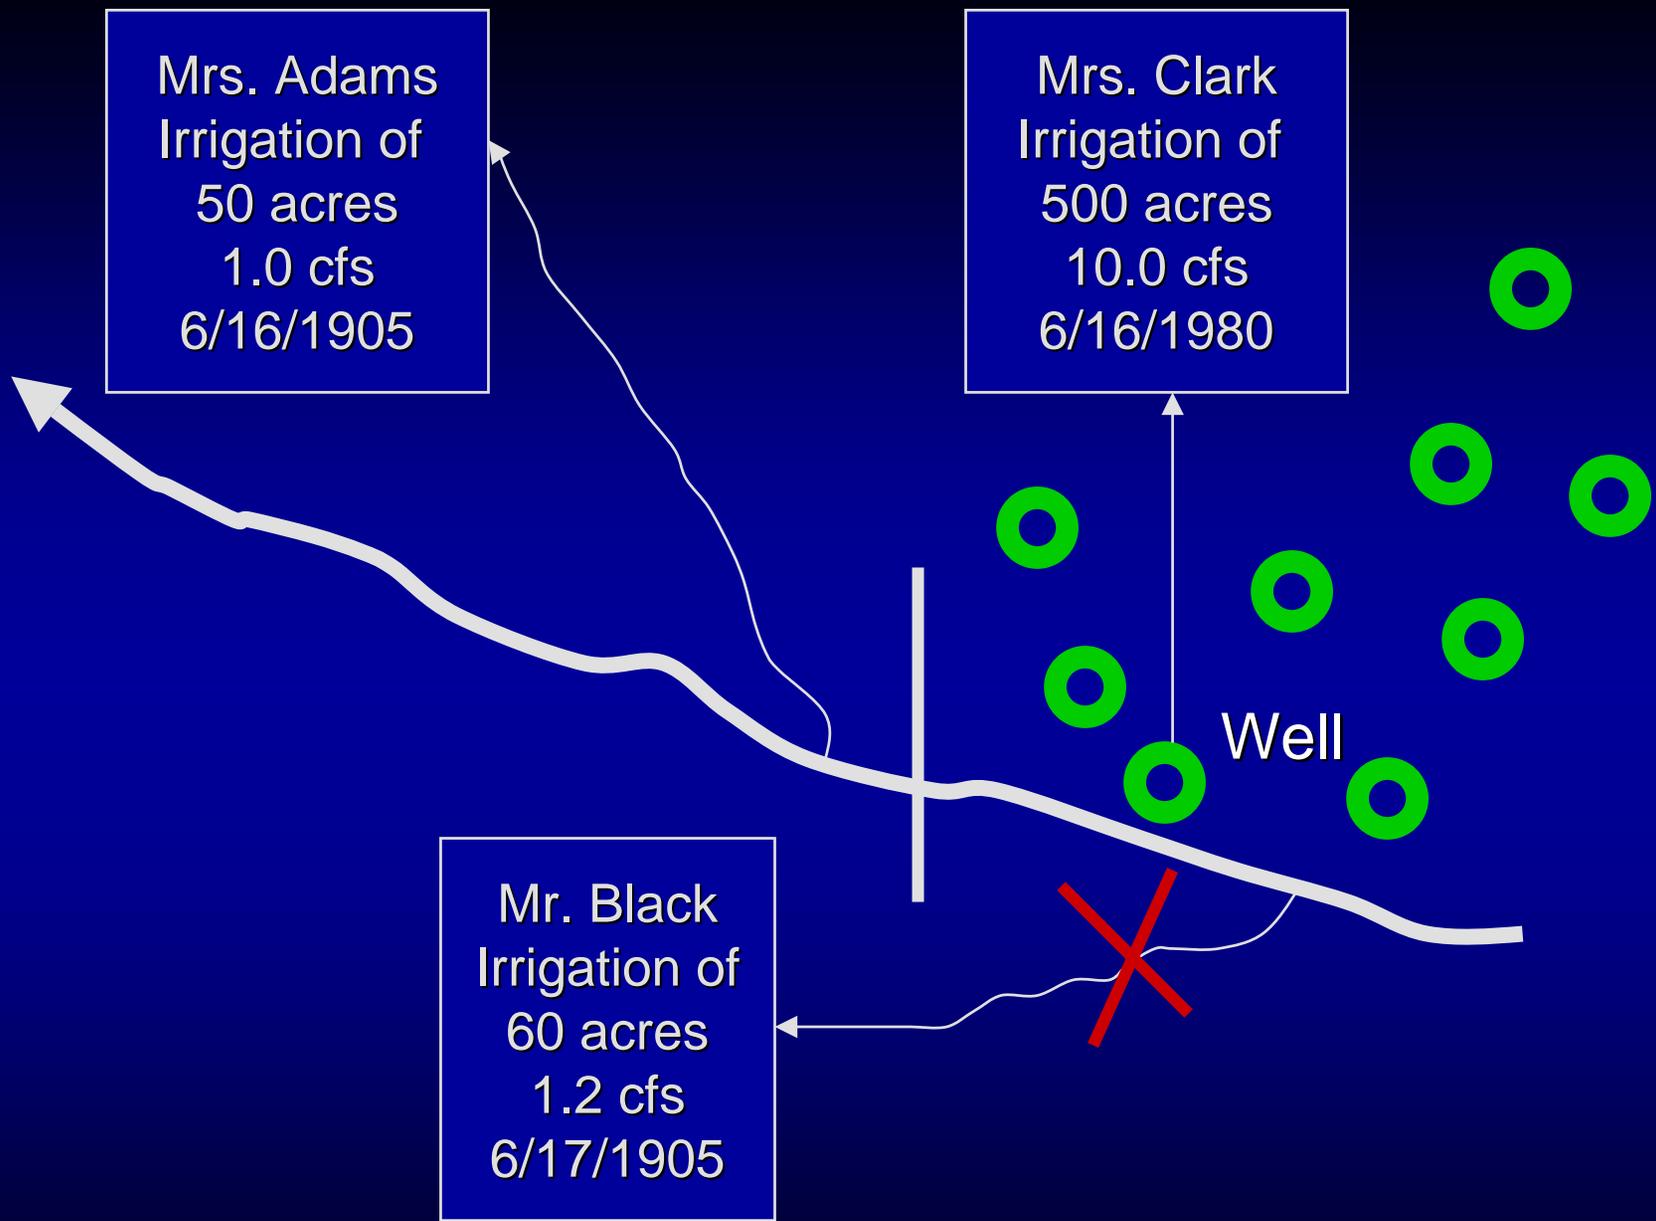

- Apply for a permit with IDWR
- Divert the water and beneficially use it
 - “Grandfather right”
 - “Beneficial Use Right”
 - “Constitutional Right”
 - No longer available except in certain de minimis situations

Elements of a Water Right

- Diversion
- Beneficial Use

cfs = cubic feet per second

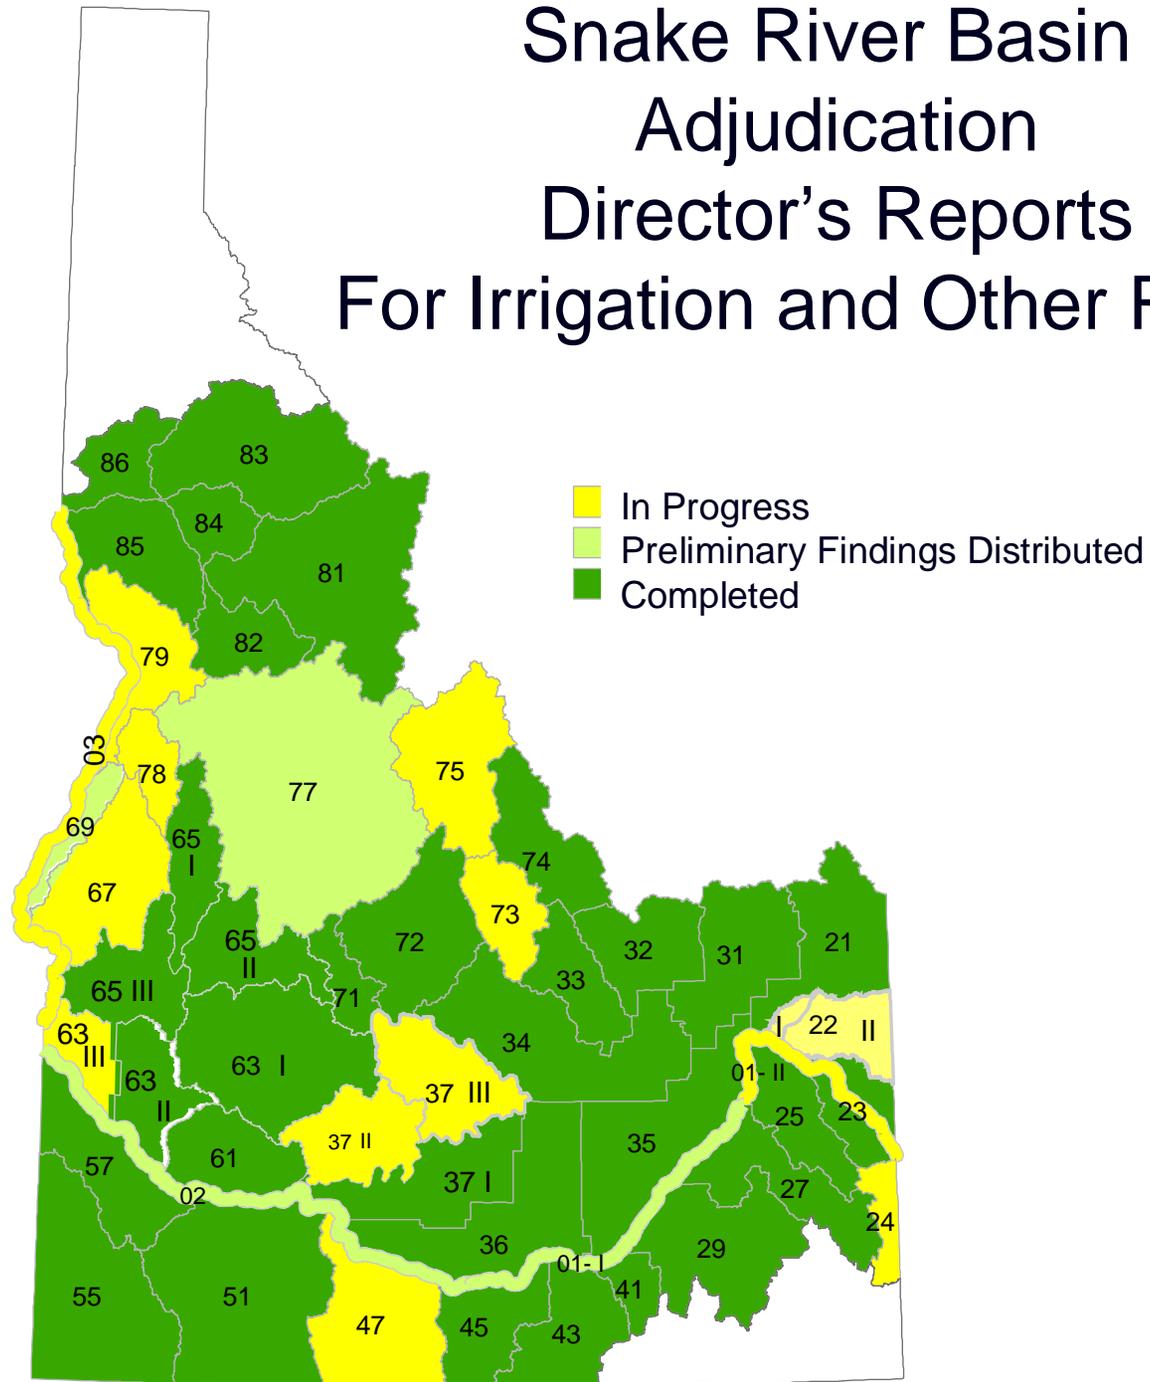

How do we *start* to sort this

Adjudicate the water rights!

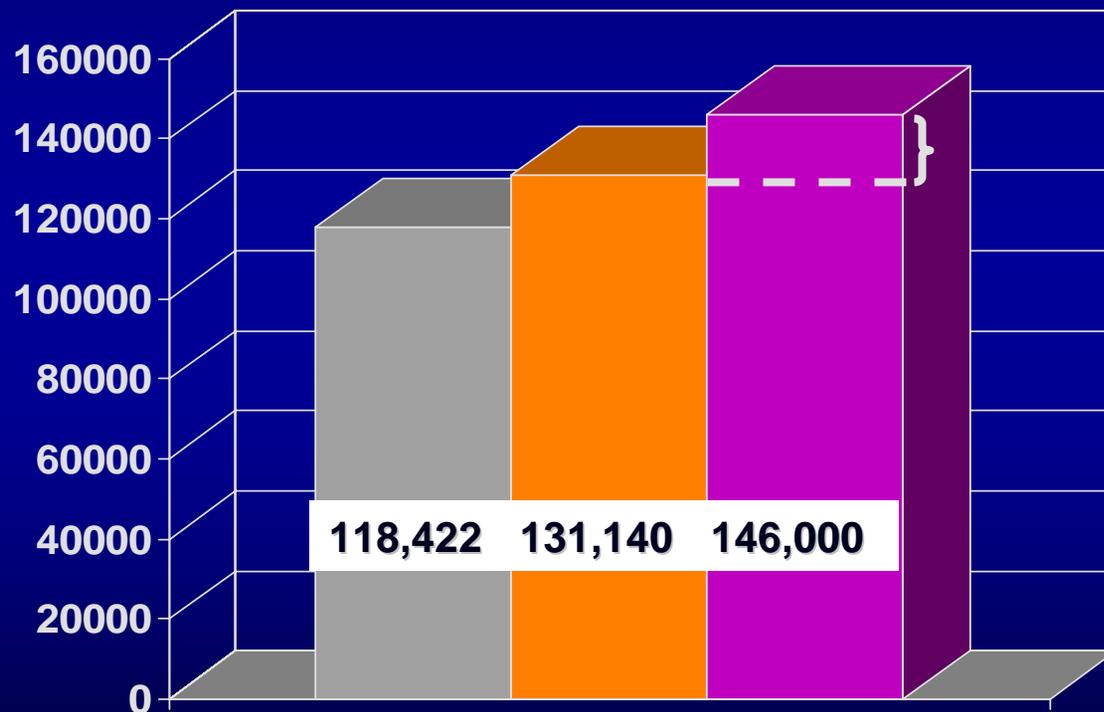

What is a Water Right Adjudication in Idaho?

- Similar to most Western States
- Determination in State Court of the water rights in a given basin, with the aid of the Idaho Department of Water Resources as technical expert, based on claims of water right holders
- Individuals, companies, all levels of government and tribes are compelled to participate
- Provides the basis for water management

Pros and Cons of Water Right Adjudications

Pros

- Beneficial use rights are determined
- Unused water rights are culled
- Provides basis for conjunctive administration
- Federal and tribal rights are determined

Cons

- Cost
 - Water users
 - Legislative time
 - Judicial time
 - Governmental agencies
 - Public – General fund
- Dormant problems are discovered

Pros and Cons of Water Right Adjudications

Pros (cont.)

- Dormant problems are resolved
- Enhances the opportunity to resolve interstate issues without compact negotiations
- Knowledge is power

Cons(cont.)

Recommended and Adopted Management Plan

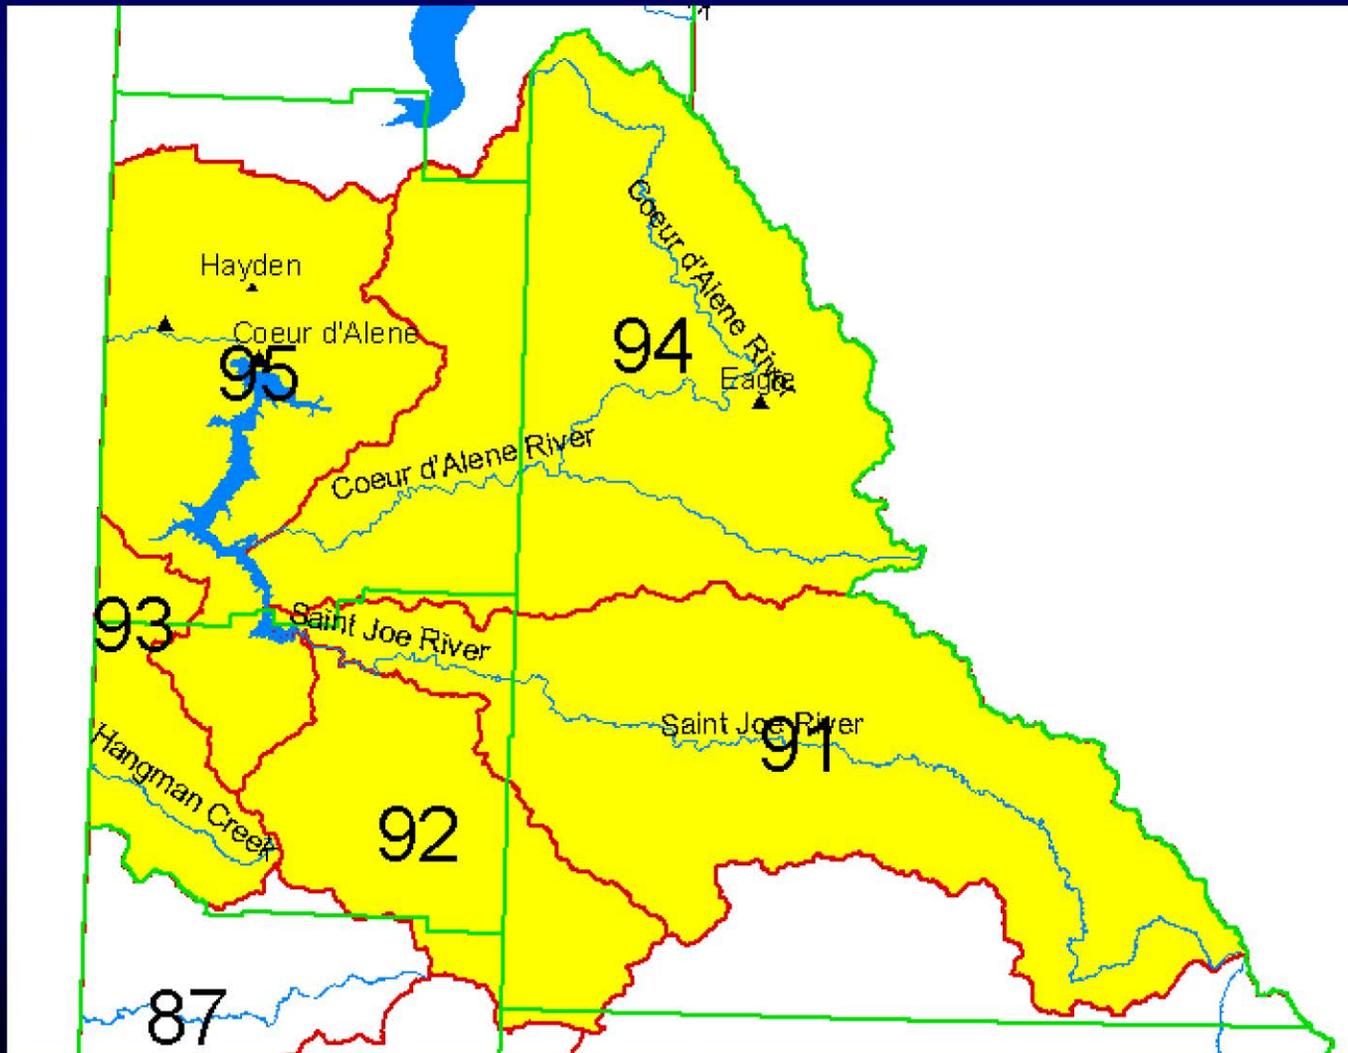

- Goal 2, Item B

The Department of Water Resources will work with the Rathdrum Prairie Ground Water Management Advisory Committee and local elected officials to determine the **feasibility, cost and potential funding mechanisms** to begin adjudication of water rights in the Coeur d'Alene Basin. **The IDWR will include the preferred alternative in its Fiscal Year 2007 budget request along with any legislation necessary to undertake the adjudication.**

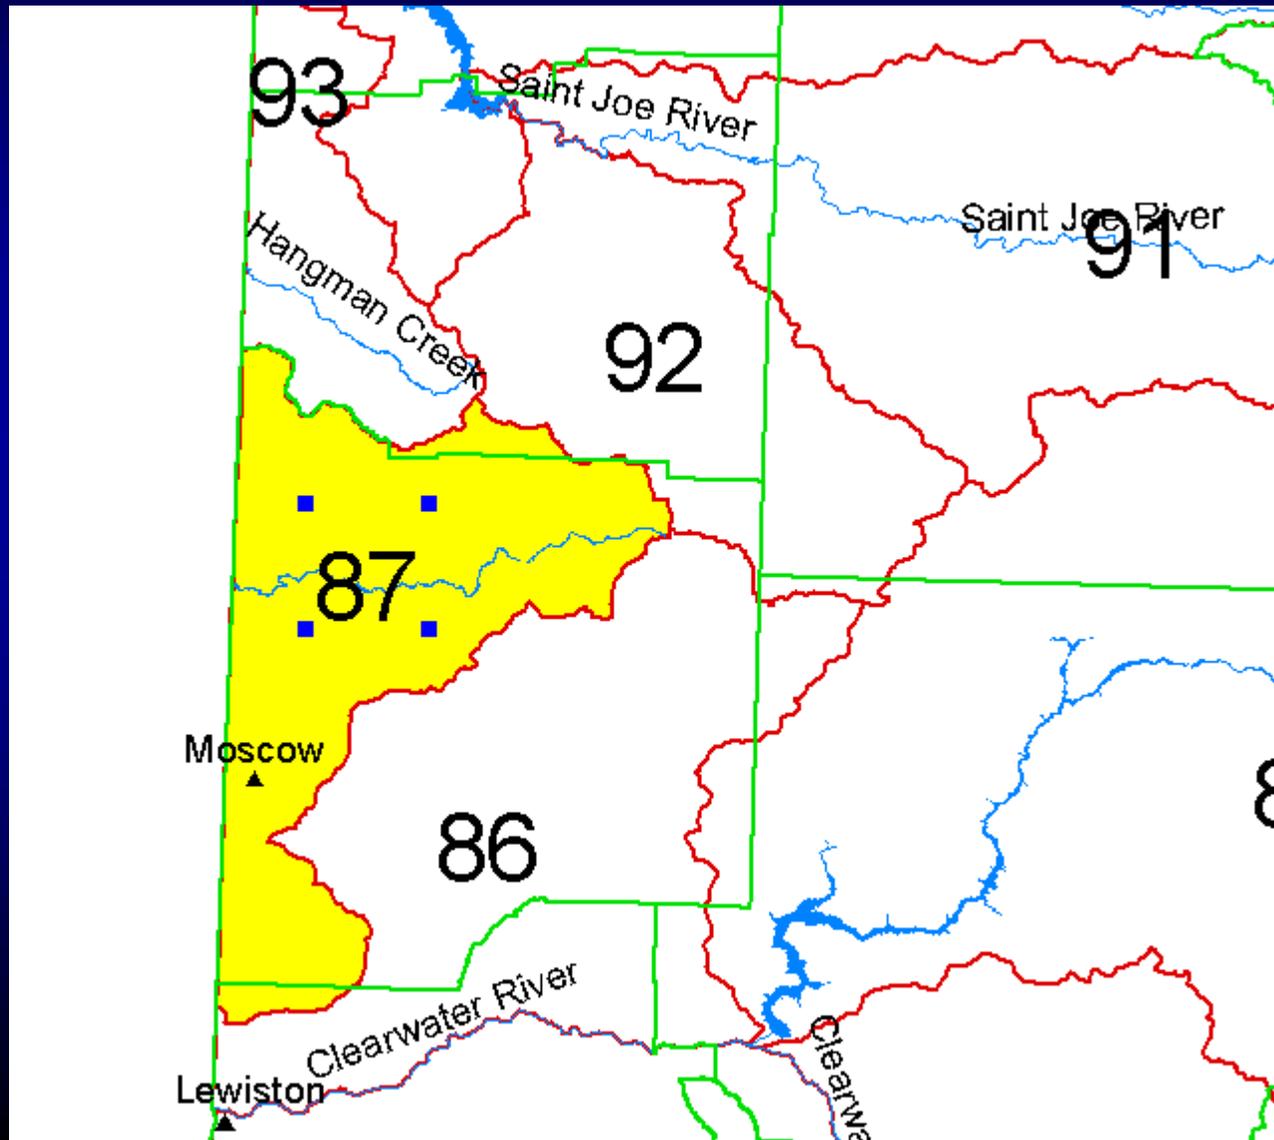

JFAC Guidance for 2005

- SECTION 4. It is legislative intent that the Department of Water Resources work with the Rathdrum Ground Water Management Plan Advisory Committee and local elected officials to determine the **feasibility, cost and potential funding mechanisms** to begin adjudication of water rights in the Coeur d'Alene Basin. The Department is requested to include the preferred alternative in its Fiscal Year 2007 budget request along with any legislation necessary to undertake the adjudication.

Potential Legislation Changes

- 42-1406B: Commencement – North Idaho River Basins

LEGISLATURE OF THE STATE OF IDAHO

Fifty-eighth Legislature

Second Regular Session -- 2006

IN THE HOUSE OF REPRESENTATIVES

HOUSE BILL NO. _____

BY _____

AN ACT

RELATING TO THE ADJUDICATION OF WATER RIGHTS; AMENDING CHAPTER 14, TITLE 42, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 42-1406B, IDAHO CODE, TO PROVIDE FOR THE COMMENCEMENT OF ADJUDICATIONS OF NORTHERN IDAHO WATER RIGHTS; AMENDING SECTION 42-1414, IDAHO CODE, TO INCREASE FILING FEES FOR NOTICES OF CLAIM; AND AMENDING SECTION 42-1425, IDAHO CODE, TO MAKE TECHNICAL CORRECTIONS.

COMMENCEMENT. (1) Effective management of the waters of Northern Idaho requires that a comprehensive determination of the nature, extent and priority of the rights of all users of surface and ground water be determined. Therefore, the director of the department of water resources shall petition the district court to commence adjudications within the terms of the McCarran amendment, 43 U.S.C. section 666, of the water rights from surface water and ground water sources in Northern Idaho through initiation of three proceedings. Separate petitions shall be filed for water rights adjudications for each of the following river basins, and related ground water sources whether or not hydraulically connected to a surface water source, within Idaho: the Coeur d'Alene-Spokane river basin, the Palouse river basin, and the Kootenai and Clark Fork-Pend Oreille river basins. The filing of each petition shall be contingent on legislative funding approval. Each petition shall describe the boundaries of the water source or water sources to be adjudicated.

(2) The adjudication shall be brought in any district court in which any part of the water source is located or before a court of special jurisdiction for water right adjudications. Unless otherwise ordered by the supreme court, special jurisdiction for the water rights general adjudications authorized by this section shall reside in the Snake River Basin Adjudication district court of the fifth judicial district of the state of Idaho, in and for the county of Twin Falls. The clerk of the district court in which the petition is filed shall send to the supreme court a true and certified copy of the petition. The supreme court, by order, shall assign the judge to preside over the general adjudication. Venue of the general adjudication shall be determined by order or rule of the supreme court and venue of hearings under the general adjudication shall be determined by order of the presiding judge.

42-1414. FEES FOR FILING NOTICE OF CLAIMS WITH THE DIRECTOR. (1) In order to provide an adequate and equitable cost-sharing formula for financing the costs of adjudicating water rights the department of water resources shall accept no notice of claim required under the provisions of section 42-1409, Idaho Code, unless such notice of claim is submitted with a filing fee based upon the fee schedule set forth below. Failure to pay the variable water use fee in accordance with the timetable provided shall be cause for the department to reject and return the notice of claim to the claimant. The fee schedule set forth below applies to adjudication proceedings commenced or enlarged on or after January 1, 1985.

(a) Flat fee per claim filed:

(i) Claims for domestic and/or stock watering rights based on permit, license, decree or statutory claim \$250.00

(ii) Claims for all other rights \$50100.00

(b) Additional variable water use fee for claims filed based upon acreage, power generating capacity, c.f.s., or equivalent volume of water:

(i) Irrigation use (one fee irrespective of number of claims): \$ 42.00 per acre

(ii) Power: \$ ~~3.50~~ 7.00 per kilowatt of capacity (manufacturer's nameplate rating)

(iii) Aquaculture: \$ 420.00 per c.f.s.

(iv) Municipal, industrial, commercial, mining, heating, cooling: \$4200.00 per c.f.s.

(v) Public instream flow, public lake level maintenance, wildlife: \$4200.00 per c.f.s.

(2) Any change of place of use, point of diversion, nature or purpose of use or period of use of a water right by any person entitled to use of water or owning any land to which water has been made appurtenant either by decree of the court or under the provisions of the constitution and statutes of this state, prior to November 19, 1987, the date of commencement of the Snake River basin adjudication, and prior to January 1, 2006, for the northern Idaho adjudications authorized by section 42-1406B, Idaho Code, may be claimed in a—the applicable general adjudication even though the person has not complied with sections 42-108 and 42-222, Idaho Code, provided no other water rights existing on the date of the change were injured and the change did not result in an enlargement of the original right. Except for the consent requirements of section 42-108, Idaho Code, all requirements of sections 42-108 and 42-222, Idaho Code, are hereby waived in accordance with the following procedures:

Funding for the adjudication of water rights within the Coeur d'Alene - Spokane basin in FY 2007 from the state general fund in the amount of one million three hundred thirty five thousand dollars (\$1,335,000).

Projected Milestones – By Fiscal Year

- 2006

- Enact legislation
- Identify funding

- 2007

- Prepare updated claims-taking software
- Develop on-line claims filing capability
- Arrange audio/visual links with the Court
- Obtain GIS images and layers
- Work with counties to create digital ownership information

Projected Milestones – By Fiscal Year – Basins 91-95

- 2008

- Commence the adjudication for Basins 91-95
- Conduct public meetings
- Send round-one service
- Conduct claims taking

- 2009-2010

- Conduct field examinations
- Prepare recommendations

- 2011

- File Director's Reports

- 2012

- Dispute resolution

Potential Funding Mechanisms

- Update fees (a third of the cost)?
- Provide General Fund (a third of the cost)?
- Other?

Attorney General Concern

- Determination of tribal water rights on Lake Coeur d'Alene could be a costly and long-term battle

Next Steps

- IDWR is awaiting legislative direction
