

A Zone Coverage

Taken from 2001 Study for FEMA to determine mapping needs
by Department of Water Resources (Scott Van Hoff)

20%	Ada	"A" Zones in tributary streams
100%	Adams County	Adams County received FIRM in '99 with all "A" Zones. Need to provide BFEs for developed areas.
80%	Bannock County	Current map is '79 with lots of "A" Zones
100%	Bear Lake Co.	There is currently no FIRM for this county
90%	Benewah County	Major flood damage. Need BFEs in "A" Zones
75%	Bingham County	convert A zones to AE
60%	Blaine County	Community states current map contains many flaws. Need BFEs on tributary streams.
50%	Boise County	C of E has studied Moores Creek. This study needs to be incorporated into FEMA's map.
80%	Bonner County	Many "A" Zones need BFEs.
50%	Bonneville County	Convert "A" to AE Zones.
70%	Boundary County	Need BFEs on developed tributaries.
90%	Butte County	County has very large "A" Zones on the Big Lost River. Need BFEs.
100%	Camas County	Disaster community but no map.
35%	Canyon County	Study Underway
100%	Caribou County	County currently has no FIRM.
80%	Cassia County	County contains primarily "A" Zones
100%	Clark County	All "A" Zones, need BFEs.
65%	Clearwater County	Many "A" Zones
100%	Custer County	All A zones
90%	Elmore County	County maps contain lots of "A" Zones
100%	Franklin County	All "A" Zones - Bear River unstudied.
100%	Fremont County	All "A" Zones - Teton and Henry's Fork Rivers.
100%	Gem County	Lots of "A" Zones - Old map.
70%	Gooding County	Lots of "A" Zones
100%	Idaho County	Mostly "A" Zones
100%	Jefferson County	"A" Zone conversions needed.
100%	Jerome County	"A" Zone conversions needed.
60%	Kootenai County	Contains lots of "A" Zones. Past developments on South Fork of Coeur d'Alene have changed floodplains.
60%	Latah County	Lots of "A" Zones to be converted to AE.
85%	Lemhi County	Lots of "A" Zones to be converted to AE.
65%	Lewis County	County participates in NFIP without a map. Need new study.

100%	Lincoln County	Contains all "A" Zones.
50%	Madison County	Current map contains "A" Zones only.
100%	Minidoka County	This county's map contains all "A" Zones. Milner Dam has changed river flows
50%	Nez Perce County	County map contains many "A" Zones
50%	Oneida County	
100%	Owyhee County	This county has no map but does have flood prone areas, especially along Snake River.
80%	Payette County	County map contains many "A" Zones.
100%	Power County	Power County has no flood map.
90%	Shoshone County	Superfund Changes. Study Underway
50%	Teton County	Past violations committed by county. Lots of Zone "A"s being developed with homes.
60%	Twin Falls County	Many unnumbered "A" Zones.
100%	Valley County	Unnumbered "A" Zones. North Fork of Payette River needs study.
50%	Washington Co.	Many Zone "A"s.

Unnumbered A Zones in Idaho 1
