Re: Water call and request for administration

Dear Mr. Spackman,

Please consider this letter to be a formal notice that Aquarius Aquaculture is again making a water call and requesting the Idaho Dept. of Water Resources to do whatever is necessary to deliver water to the points of diversion, for water right numbers 36-07160 (2.64 cfs – priority 2/18/1971), 36-07159 (10 cfs – priority 2/18/1971), and, 36-07092B (10 cfs – priority 11/06/1969). We are entitled to delivery of 22.64 cfs from Hidden Springs for fish propagation.

Today, the facility that utilizes these water rights is receiving less than 50% of the water entitled by these rights from the spring source. Any water that can be returned to our points of diversion will be put to beneficial use under the terms and conditions of our decrees.

Demand is hereby given that you direct the Water Master to administer water rights required by Idaho Code 8 42-607 in order to supply these prior rights.

Sincerely yours,

David Huff
Vice President – Aquarius Aquaculture
