Parratt. Brief CV-42-2015-4552

2002 Recipts indicate yes there was irrigation going on, backed by google earth image

After that Reciepts are sufficient to perhaps Run a swather for 3 cuttings of hay on 80 acres, such as the Leno Bull farm

Move Directly goggle earth maps ^ show no green up from irrigation except Meadow flooding from unusual spring Run off in Mule Creek

The 2013 MAP shows a pivot frome, Not moved as does the identical area image in 2009 and 2007 & MAP

IN 2004 A pivot is seen To the south of the home, Trees and corrals. There is NO North pivot (west of the house)

used by USDA

This is a Timely Response brief from Parrott

~~Issue~~ —

Parrott continues to contend that Cedar Ridge Transfers were improperly granted based on IDWR granting 3 previous (unprotested) transfers from Leno.

The examination of facts, then and Now would have forced IDWR to Reject Those 3 transfers.

There was a form of "Scouts honor it's okay" message from Cedar Ridge Counsel to hearing officer Cefalo on that Subject

As a 47 page Document (submited by Parrott but Rejected by the Court)

Covers that previous transfer and water use by Leno. we find Acre feet use is based on gallons of Diesel on 2 Receipts.
