**Message from 208/724-1506, Al Barker to Mat Weaver on Friday, March 7, 2014:**

Hello Mat, Al Barker. I got your email; I was just checking in. It'll be great to see what you guys are working on. I kind of have been in touch with Simpson and I hope you guys have made some progress this morning on the upper Snake issues. I have some real internal problems with the Boise, as you probably have heard from your discussions with Gary, after our meeting with him the other day. I really, really need that analysis that only Liz can perform on how much water has been made available for the juniors in those flood control/refill years. If you could get that to me; that would be a huge help. Appreciate it, and talk to you later Mat. Bye.
