**NOTICE OF APPLICATION FOR APPROVAL
OF THIRD MITIGATION PLAN TO COMPENSATE
SNAKE RIVER FARM**

Notice is hereby given that on March 12, 2009, North Snake Ground Water District and Magic Valley Ground Water District (collectively referred to as "the districts"), c/o Randall C. Budge, Racine Olson Nye Budge & Bailey, PO Box 1391, Pocatello ID 83204-1391, submitted a Third Mitigation Plan (Over-the-Rim Plan) of North Snake Ground Water District and Magic Valley Ground Water District (plan or mitigation plan) to the Department of Water Resources (Department). On March 19, 2009 the districts augmented the plan. The Department will process this plan pursuant to the Department's Conjunctive Management Rules (IDAPA 37, Title 03, Chapter 11).

The members of the districts hold ground water rights for domestic, municipal, commercial and industrial uses, and for irrigation of approximately 220,000 acres located mostly north of the Snake River within Gooding, Jerome, Lincoln, Minidoka, Blaine and Cassia Counties. Certain of these ground water rights have priority dates junior to the priority dates of certain water rights from spring sources that discharge to the Buhl to Thousand Springs reach of the Snake River. The ground water and the springs are interconnected sources of water. The districts have proposed the mitigation plan to mitigate injury to earlier priority surface water rights that may result from depletions under later priority ground water rights. The surface water rights which the mitigation plan proposes to benefit are: 36-4013B and 36-7148, both held by Clear Springs Foods for use at their Snake River Farm hatchery facility. The Over-the-Rim plan provides up to 3.0 cfs continuous flow of ground water or spring water directly into the head works of Clear Springs Foods hatchery facility north of Buhl. The plan proposes to permanently discontinue use of seven wells for irrigation and change the use of the wells from irrigation to year-round aquaculture. This will be accomplished by conversion of the irrigation of up to 2,000 acres near the site from ground water supply to surface water supply and utilization of the wells to supply water to Clear Springs Foods hatchery facility and/or utilization of a spring right held by the Idaho Department of Fish and Game for delivery to Clear Springs Foods hatchery facility.

The Department has not determined the adequacy of the proposed plan. A complete copy of the proposed plan is available for review at either the Department's State Office in Boise, the Department's Regional Office in Twin Falls, or may be viewed online at the following website along with other related documents:

http://www.idwr.idaho.gov/Calls/Spring%20Users%20Calls/snake_river.htm

Any protest against approval of the plan must be filed with the Department of Water Resources, together with a protest fee of \$25 on or before April 20, 2009. The protest must include a certificate of service showing that a copy of the protest has been mailed to or served on the districts.
