

UNITED WATER IDAHO
CONSERVATION

The flyer features a dark, textured image of water splashing on the left side. The title 'UNITED WATER IDAHO CONSERVATION' is centered in a bold, sans-serif font. Below the title, there is a circular graphic element and some smaller, less legible text.

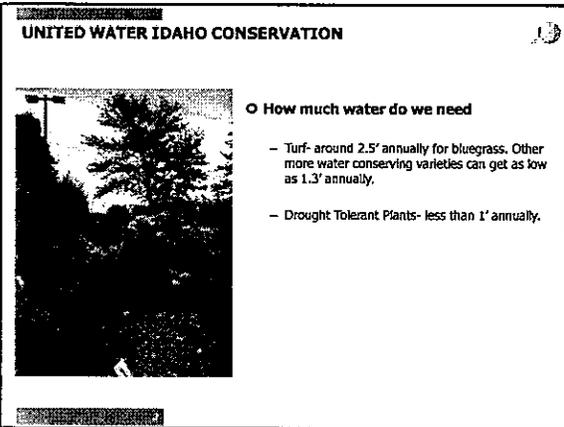

UNITED WATER IDAHO CONSERVATION

Our conservation programs are voluntary. We do not have the authority to dictate water use such as when to water or issue citations.

- Summer Tariff -25% Increase
- Meter All Customers
- Free Devices
- Demonstration Gardens
- Education Programs
- Summer Conservation Campaign
- Plumbing Codes

The flyer includes a list of seven conservation programs. To the right of the list is a dark, textured image of water splashing.

UNITED WATER IDAHO CONSERVATION

○ How much water do we need

- Turf- around 2.5" annually for bluegrass. Other more water conserving varieties can get as low as 1.3" annually.
- Drought Tolerant Plants- less than 1" annually.

The flyer features a photograph of a lush green lawn on the left side. The text is positioned to the right of the image.
